

**Neurosoft announces collaboration with STOPANSKA BANKA AD – Skopje**

**Neurosoft S.A.** - a premier software house, listed on AIM Italia market (GRS802003004, Reuters NRST.MI, Bloomberg NRST:IM) to which *Integrae SIM* is the Nominated Adviser – announces its collaboration with **Stopanska Banka AD member of NBG Group**, providing its second generation end-to-end factoring software solution, **Proxima+**, to best serve the bank's needs within the central installation of the Group.

The contract concerns the implementation and customization of Neurosoft's Proxima+, to support the launch - in January 2016 - and operation of the new product - Factoring, now being introduced by Stopanska Banka to the local market, bringing additional modern services and unique benefits to its clients. The contract is valid indefinitely and is automatically renewed every year.

As for the countries where NBG Group operates, Proxima+ has been implemented in their respective local languages and currencies. Therefore, Proxima+ users of Stopanska Banka shall receive a flexible system which fully meets their needs. The system shall be adapted to local market-specific requirements of Stopanska (functional, technical, legal, administrative, reporting), it shall communicate with accounting/SAP, core banking and other third-party systems, being fully integrated into the global installation of NBG Group where the system is centrally administered.

The **National Bank of Greece - NBG**, with a strong presence in Greece and a dynamic profile in Southeastern Europe and the Eastern Mediterranean, has been offering a wide range of financial services including receivables management and factoring since 1994. Attuned with the changing and demanding requirements of the market and the tremendously increasing trend of factoring industry internationally, in 2009 NBG strategically decided to grow its factoring operations in Greece and abroad and chose Neurosoft's Proxima+ global and central operational platform following an international tender.

**Stopanska Banka AD (FYROM)** is the fourth international factoring subsidiary now joining the Proxima+ central installation of NBG Group, following Ethniki Factors (Greece) in 2013, Banca Romaneasca (Romania) in 2011 and UBB (Bulgaria) in 2010. Stopanska Banka is a leading bank with the longest tradition in the market of FYROM, the biggest number of clients in retail and corporate segment, the most developed network, the largest portfolio of lending and deposit products and the largest assets in FYROM.

**Proxima+** has the benefit of multiple deployments across Europe and UAE, including multi-country installations, successful data migration and interfaces with various third-party systems. For start-up factors **Proxima+** is "plug and play" and an instant business accelerator, whereas provided as Software-as-a-Service (SAAS) it offers even more accessibility options and cost benefits to financial institutions of all sizes.

**Neurosoft S.A.**, a Greek company, based in Athens, listed on the AIM Italia market which is organized and managed by the Italian Stock Exchange (ISIN GRS802003004, Reuters NRST.MI, Bloomberg NRST:IM), today is a software provider supplying solutions that optimize business and operational processes with a view to maximizing customer profitability. Neurosoft's innovative integrated software systems in factoring, sports betting, business intelligence, liability management, transactions, and the

implementation of mission critical applications have provided tools to financial institutions, stock exchanges, telecom companies and sports betting operators in order to increase operating efficiencies, act on well-depicted real-time risk and liability analysis, and increase revenues and bottom-line capitalizing on sophisticated predictive analytics. Neurosoft was founded in 1994 and became the first company to be floated in the AIM Italia market of the Milan Stock Exchange in 2009. Integrae SIM S.p.A is Neurosoft's Nominated Adviser for the AIM Italia market.
