

## Start of Trading of Neurosoft S.A ordinary shares

On Friday, May 8th 2009 the trading of Neurosoft ordinary shares started in the AIM Italia market of the Milan Stock Exchange. The Greek software company is the first one to be listed in this specific Milan Stock Exchange market, which was taken over by the equivalent AIM market of the London Stock Exchange. Specialist is Mediobanca and Nominated Adviser is Banca Akros.

The 7,6 million euro issue was addressed exclusively to institutional investors and had a major acceptance, since it was over 3 times oversubscribed. The investors gave a warm welcome to Neurosoft, since during the first day of trading on Friday, May 8th, the official closing was 8,47€ recording a rise of 12%.

The company's floatation on AIM Italia was effected through a capital increase of 1.000.0000 new shares, increasing the share capital from 5.000.000 shares to 6.000.000 shares, thus realizing a free float of about 17%. The AIM Italia organized an event on the occasion of Neurosoft's shares listing, which was attended by the upper management of Neurosoft, the President and CEO of OPAP Mr. Christos Hatjiemmanuil and the CEO of the Milan Stock Exchange Mr. Massimo Capuano.

Neurosoft was founded on 1994 and specializes in three main areas of activity offering integrated software solutions for: a) Sports Betting and Gaming Analytics, b) Business Intelligence and c) Core Factoring.
